Ziemex inaugurates his new dedicated production hall for the manufacturing of welded plate heat exchangers

Inaugurated on 20th July 2015, the production hall is fully operational and is equipped with latest technologies of welding, forming and control.

700 sqm state-of-the art production facilities to ensure manufacturing according to the pharmaceutical highest international standards.

70% of Ziemex revenue is export based.

The investment, about 1 Million Euros, is going to allow the consolidation of this activity and to consolidate definitively the position of Ziemex on this segment of welded plate heat exchangers.
